

The Lending Staff at LSU

LSU's interlibrary loan dept uses RapidILL, a unique resource sharing system that was designed by the Interlibrary Loan staff at Colorado State University Libraries.

RapidILL posted this announcement recently:

KUDOS Repeat!

Congratulations to the lending staff at Louisiana State University for having the **fastest** lending turnaround time in the Rapid system for the second month in a row. Narrowly edging out AFU's [University of Arkansas] .19 (4.56 hours) for first place, LUU's [LSU] average lending TAT [turnaround time] was an amazing .17 days or **4.08 hours!**

Great job!
