

(Employer instructions for creating a profile on Careers2Geaux)

Career Services: If you are a recruiter interested in recruiting students and alumni from Louisiana State University, creating a Careers2Geaux profile is one of the most important steps you can take.

To do so please visit www.lsu.edu/career and click the “Careers2Geaux” button at the top of the page.

Choose “Employer Login” and then select “Clear here to register.”

Now, Careers2Geaux will check to make sure there isn’t already a profile for my organization. I choose my organization and click continue.

On this screen, I am able to put in my personal information, and I can also create a user name and password so that I can access the system later. Though I can’t update the basic employer information from this screen, I’ll be able to do that after I register and go back in to log into my account.

When I’m finished, I just click the register button and I’m done.
